

money-funded amici. Based on questioning from the Court Republicans at oral argument, this case looks almost certain to go in the scheme's favor.

Pause to consider what this means. The NRA basically cloned itself to amplify its voice before the Court, just as other scheme front groups have done in other cases, in wave upon orchestrated wave of amicus briefs, washing into the cases that matter to the scheme's big donors.

And when those little orchestrated flotillas or the big orchestrated armadas show up at the Court to signal what they want, they always get what they want from the dark money majority at the Court—always. Maybe not all they want always—some groups ask for more than others. Some signal where they want the Court to go in future cases, not just what they want in this case. But the response from the Republicans on “the Court that dark money built” is clear. They heed the dark money signals every single time.

Our Supreme Court is awash in dark money influence, with flotillas of dark-money-funded front groups—front groups that don't bother to “offer value,” that aren't even real, in the sense that they have no real business or function, that exist merely to signal their donors' desired outcomes, while hiding their donors' identities.

It is an armada of fakery that the court indulges. This fakery lets a small, wealthy, donor elite manufacture sham allies to get themselves a bigger say at the Supreme Court than everyone else. They are out to get the Court to do stuff for them that Americans don't want and that Congress won't vote for. But with a captured Court, they can get what they want, and they do.

The American people may not be able to see all of the rot, but they can see enough to know that something is rotten over there across First Street at that Court. We must set it right.

To be continued.

The PRESIDING OFFICER. The Senator from Rhode Island.

REMOVAL OF INJUNCTION OF SECRECY—TREATY DOCUMENT NO. 117-1

Mr. WHITEHOUSE. Mr. President, as if in executive session, I ask unanimous consent that the injunction of secrecy be removed from the following treaty transmitted to the Senate on November 16, 2021, by the President of the United States: Amendment to Montreal Protocol “Kigali Amendment,” Treaty Document No. 117-1. I further ask that the treaty be considered as having been read the first time; that it be referred, with accompanying papers, to the Committee on Foreign Relations and ordered to be printed; and that the President's message be printed in the RECORD.

The PRESIDING OFFICER. Without objection, it is so ordered.

The message of the President is as follows:

To the Senate of the United States:

With a view to receiving the advice and consent of the Senate to ratification, I transmit herewith the Amendment to the Montreal Protocol on Substances that Deplete the Ozone Layer (the “Montreal Protocol”), adopted at Kigali on October 15, 2016, by the Twenty-Eighth Meeting of the Parties to the Montreal Protocol (the “Kigali Amendment”). The report of the Department of State is also enclosed for the information of the Senate.

The principal features of the Kigali Amendment provide for a gradual phasedown in the production and consumption of hydrofluorocarbons (HFCs), which are alternatives to ozone-depleting substances being phased out under the Montreal Protocol, as well as related provisions concerning reporting, licensing, control of trade with non-Parties, and control of certain byproduct emissions.

The United States has sufficient domestic authority to implement obligations under the Kigali Amendment, including through the American Innovation and Manufacturing Act of 2020 (the “AIM Act”) and the Clean Air Act. The Environmental Protection Agency's recent rulemakings under the AIM Act establish a domestic HFC allocation system and other provisions that would enable the United States to begin implementation of the provisions of the Kigali Amendment.

The Kigali Amendment has strong support from the U.S. business community and nongovernmental organizations. Ratification by the United States would advance U.S. interests in remaining a leader in the development and deployment of HFC alternatives, ensuring access to rapidly growing refrigeration and cooling markets overseas and stimulating U.S. investment, exports, and job growth in this sector. Ratification will also ensure the United States continues to have a full voice to represent U.S. economic and environmental interests as implementation of the Kigali Amendment moves forward in coming years.

The Kigali Amendment entered into force on January 1, 2019, and there are currently 124 Parties to the Amendment. The Senate has given its advice and consent to ratification of all four previous amendments to the Montreal Protocol, with bipartisan support. I recommend that the Senate give favorable consideration to the Kigali Amendment and give its advice and consent to ratification at the earliest date.

JOSEPH R. BIDEN, Jr.,
THE WHITE HOUSE, November 16, 2021.

EXECUTIVE SESSION

EXECUTIVE CALENDAR

Mr. WHITEHOUSE. Mr. President, I ask unanimous consent that the Senate proceed to executive session to consider the following nominations en
